Overview

ICEMA 2027 is an international conference organized by A.N. College, Patliputra University, Patna, in hybrid mode from 15 to 17 March 2027. Following the successful **ICEMA 2022**, it brings together academicians, scientists, researchers and industry experts to present recent research, build international collaborations and discuss emerging developments in materials science, physical sciences, biosciences, electronic applications and related interdisciplinary fields.

Aims & Scope

The programme features keynote addresses, plenary lectures, invited talks, contributed oral presentations and poster sessions by distinguished experts from academia and industry. Accepted and presented contributions will appear in the ICEMA 2027 Abstract Booklet; after peer review, selected full-length papers may be considered for Scopus-indexed conference proceedings, subject to the publisher's policies.

Conference Themes

- **T1** AI-ML and Big Data for Materials Informatics
- **T2** Innovative Functional Materials for a Low-Carbon Future
- **T3** Emerging Materials for Renewable and Sustainable Energy
- **T4** Computational Materials Science and Multiphysics Modelling
- **T5** Glasses, Ceramics, Composites and Polymers
- **T6** Carbon Nanostructures, Graphene, Smart Coatings and 2D Materials
- **T7** Biomaterials, Chemical Biology and Applications in Health Science
- **T8** Functional Nanomaterials, Thin Films and Devices
